PROFILE

I'm a software developer with 4+ years of web development. I'm proficient in JavaScript, Vue 2, Vue 3, React.js, Node.js, Express,js, Solid.js, Tailwind CSS, TypeScript etc. My goal is delivering the best possible user experience, performance, and intuitiveness in the products I develop.

WORK EXPERIENCE

FixIQ Pro   2021.09– 2024.07 (2y 11m)

- Develop new features, maintain codebase, perform code reviews, increase perfomance though refactor
- Part of a team creating a micro front end using Solid.js.
- Mentor junior developers
- Make intergations with Checkbox, Quickbooks, Sendpulse
- Technologies: Vue 2, Vuex, Vue Router, Solid.js, Vue 3, Tailwind CSS, i18n

Medstar Solutions   2021.06 - 2021.09 (4m)

- Worked on a Vue 2 application.
- Created new components, maintained features, and wrote unit tests with Jest.

Self employed   2020.04 - 2021.05 (1y 2m)

- Worked with the MERN stack, Vue 2, React, and native JavaScript.

Varion   2020.01 - 2020.04 (4 m)

- Developed games with Phaser.js
- Developed new features with Vue 2 and native JavaScript
